

# Welcome to IFeL - Institute for Research in Open-, Distance- and eLearning

IFeL is a research institute of the Swiss Distance University of Applied Sciences (Fernfachhochschule Schweiz (FFHS)) and the Distance Learning University Foundation Switzerland (Stiftung Universitäre Fernstudien Schweiz (FS-CH)). It is the interface between educational, medial and information technology issues to implement distance education concepts and blended learning scenarios.

Our activities include the basic and application research, as well as the development and transfer of the relevant methodology.
